

## JOB OFFER

### INDUSTRIAL COMPUTER TECHNICIAN

Equipment for microelectronics

Saint-Jeoire en Faucigny, Haute-Savoie, France

Full-time, permanent position to be filled as soon as possible

Fixed + variable (profit sharing, dividendes): 28-45 K€ per year

*Business area:*

*Location:*

*Contract type:*

*Remuneration:*

#### THE POST

Are you a **computer enthusiast**, **passionate about the world of automation**?

Do you like **team work**?

Then this position is for you!

Within our **IT design office**, your main missions are the following:

- 🌱 **Develop** industrial software in DELPHI, C# and C under WINDOWS
- 🌱 **Maintain** software on existing machines
- 🌱 **Technical support** for the after-sales service and customers (occasional trips abroad)
- 🌱 **Ensure** software updates

#### YOUR PROFILE

You have a **minimum of 2 years of computer science training**, plus potential experience in the development of industrial applications and/or automation control: motor control, fieldbus, pneumatics, etc.

You have a good command of or are familiar with:

- 🌱 **DELPHI, C#, C** and **Visual Studio** environments
- 🌱 **Programming multitasking and multithreading objects** (synchronization)

You are sufficiently fluent in **English** to communicate with our clients both verbally and in writing.

#### WHO ARE WE?

For **more than 45 years**, we have been developing, in our beautiful mountain region, **state\_of-the-art equipment** for the **assembly of semiconductor components**. As a **world leader**, we attract **prestigious international customers** and major players in **tomorrow's technologies**, such as CEA-Leti, MiT, CERN, Google...

We **co-construct our company project** through a **cooperative model (SCOP)**, in a **pleasant and simple atmosphere**, where **collaboration** is effective and where each employee can become a **shareholder**.

As part of a team where **each person brings added value to the group**, we offer **varied and rewarding assignments** for which we will take time to **support you**. As we are growing, we have the opportunity to offer **career advancement**.

**IN SHORT, we share:** the work, the projects, the technical evolutions, the wealth produced and the development strategy of our company. **Want to know more about SET? Visit our website.**
