THE POST

You like **coordinate** and **manage the security** of people and buildings?
You are **meticulous, organized** and **manual**, while demonstrating **pedagogy**?
Then this position is for you!

Within our company which builds machines **among the most accurate in the world**, you contribute to **building compliance** and to **maintenance and improvement works**. Your main tasks are:

- 🌱 **Guarantee** employee safety (training, exposure sheets, PPE, etc.)
- 🌱 **Manage** the stakeholders in our building (prevention plan, electrician, craftsmen, etc.)
- 🌱 **Watch** to the safety of workers
- 🌱 **Arrange** evacuation drills

These tasks, although very diversified, only occupy a third of the time smoothed out over the year. To offer a full-time job, we want to combine them with others, for example those of design and/or prototype development. Depending on the profile, this position will be attached to the general management or the technical management.

YOUR PROFILE

Your training, ideally **Bac + 2 in Hygiene, Safety and Environment** or equivalent, coupled with potential experience, has provided you with: a knowledge base in **work management and coordination** and an ability to **control occupational risks** of employees.

You have knowledge of **peoples' security and buildings** as well as a good ability to **take initiative**, while demonstrating **rigor** in your work.

WHO ARE WE?

For more than **45 years**, we have been developing, in our beautiful mountain region, **state-of-the-art equipment** for the **assembly of semiconductor components**. As a **world leader**, we attract **prestigious international customers** and major players in **tomorrow's technologies**, such as CEA-Leti, MiT, CERN, Google...

We **co-construct our company project** through a **cooperative model (SCOP)**, in a **pleasant and simple atmosphere**, where **collaboration** is effective and where each employee can become a **shareholder**.

As part of a team where **each person brings added value to the group**, we offer **varied and rewarding assignments** for which we will take time to **support you**. As we are growing, we have the opportunity to offer **career advancement**.

IN SHORT, we share: the work, the projects, the technical evolutions, the wealth produced and the development strategy of our company. **Want to know more about SET? Visit [our website](#).**
